PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience across multiple roles designing, developing, and maintaining web applications using Node.js, JavaScript, Next.js, and React.js. Delivered 20+ responsive UI components, REST API integrations, asynchronous programming workflows, CRUD operations, and Razorpay payment gateway integration in live agile environments. Currently freelancing — building client websites end-to-end. Experienced with AWS (EC2, S3, Lambda), CI/CD pipelines, and DevOps concepts. Strong communicator and team collaborator with a problem-solving mindset, passionate about writing clean, scalable, and maintainable code.

SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Next.js, TypeScript, Redux Toolkit

Backend: Node.js, Express.js, REST API Development & Integration, JWT Authentication, CRUD Operations, MVC Architecture, Razorpay Payment Gateway, Middleware Design

Database: MySQL, MongoDB, PostgreSQL, Mongoose ODM

Testing: Postman, Manual API Testing, Jest, Vitest, Supertest

Tools & Platforms: Git, GitHub (Version Control), AWS (EC2, S3, Lambda), Docker (Basic), VS Code, Jira, Linear, Vercel, Render, Basic Linux & Hosting

Concepts: Responsive Web Design, Asynchronous Programming, Agile/Scrum, CI/CD Pipelines, DevOps Concepts, Component-Based Architecture, Clean Code Practices, Problem-Solving

Soft Skills: Team Collaboration, Communication, Fast Learner, Adaptability

PROFESSIONAL EXPERIENCE

Freelance Web Developer | Self-Employed

July 2026 - Present

- Developing a full-stack wedding venue website for Chithara Mahal, Dindigul using React.js, Node.js, Express.js, and MongoDB.
- Designing mobile-responsive UI with Tailwind CSS — gallery, services, pricing, enquiry form, and Google Maps integration.
- Integrated AWS S3 for media storage and deployed on Vercel; managing full project lifecycle from requirements to go-live.
- Delivered a 4-page responsive site in 2 weeks with lead-capture enquiry form, improving client's online presence and bookings.

Full Stack Developer - MERN Stack | BKEEP

November 2025 - Present

- Developed 20+ responsive React components across 5 production modules using React.js, Next.js, and Tailwind CSS.
- Integrated REST APIs with asynchronous programming for CRUD operations, real-time workflows, and Razorpay payment gateway.
- Implemented MVC Architecture in Node.js and Express.js with JWT Authentication; improved page load time by 35% via lazy loading.
- Participated in sprint planning, code reviews, and agile ceremonies using Jira and Linear; resolved 15+ UI/UX integration bugs.

Trainee - MERN Full Stack Developer | Dr. Reddy's Foundation - GROW Tech Program

June 2025 - Sept 2025

- Built 3 full-stack MERN apps with JWT Auth, REST APIs, CRUD operations, MySQL, MongoDB, and responsive UI.
- Applied TypeScript in collaborative sprints; participated in code reviews and Agile/Scrum sprint ceremonies.
- Gained hands-on experience in Node.js backend integration, database design, and component-based frontend architecture.
- Collaborated in a team of 5 developers — demonstrated strong communication and problem-solving skills throughout.

PROJECTS

Windy Parking Management Platform (React.js, Next.js, Node.js, Express.js, REST APIs, MySQL, Postman)

- Built frontend modules in React.js and Next.js for customer and vendor-facing parking workflows with file upload & media management.
- Tested 20+ API endpoints using Swagger and Postman; validated request/response flows, reducing post-deployment bugs.
- Implemented asynchronous programming patterns for vendor profile workflows, improving system response time.
- Contributed to sprint planning and code reviews via Linear; supported on-time delivery across multiple release cycles.

Accounting & Financial Management Platform (React.js, Node.js, Express.js, Tailwind CSS, REST APIs, JWT)

- Architected 10+ reusable React components for financial dashboards, reducing redundant code by ~25%.
- Integrated 5+ REST APIs with CRUD operations and JWT-secured backend routes for invoice and admin data management.
- Resolved 15+ UI/UX bugs through systematic debugging and code reviews across 3+ agile sprint cycles.
- Collaborated cross-functionally with backend and design teams; consistently delivered sprint tasks within deadlines.

EDUCATION

B.E. Computer Science & Engineering | 76.9% | Mahendra Engineering College, Namakkal

July 2021 - May 2025

Coursework: Data Structures & Algorithms, DBMS, Web Technologies, Object-Oriented Programming, Computer Networks

CERTIFICATIONS

BKEEP - Full Stack Development (May 2025) | **Dr. Reddy's Foundation** - GROW Tech Program Full Stack (Sept 2025) | **Wipro Tele Next** - Java Full Stack (Jan 2025)
